### EXPERIENCE

#### Full Stack Developer · Dinkum Interactive

09/2024 — Present · 2 years · Rosario, Argentina

WordPress plugins, interactive maps and back office, on a team and as the sole owner.

- I built the map for the RPPL report: a choropleth of districts and states. — **~13,000**
- I built the WooCommerce Seat Map plugin: the bridge between the map, the cart and the reservation APIs.
- I replaced the feature-state merge with a hash index built in a Web Worker. — **from ~3-5 s to ~500 ms**
- I built Muse's admin: orders, addresses, Algolia and opening events.
- I wrote the Algolia rake task in Ruby: it deletes orphans from the global index, with a dry run.

## **Front-End Developer (concurrent) · Hogarth — global client in the technology sector (Fortune 500)**

07/2023 — 01/2024 · 6 months · Buenos Aires, Argentina

Large teams, ticket by ticket: adapting the site for other countries — language, and which services exist in that market. Git and Docker.

- I adapted pages for other markets: different language and different services per country, without breaking behavior or identity.

## **Front-End Developer · Adsmovil**

06/2022 — 09/2024 · 2 years 3 months · Posadas, Misiones

Adtech. Audiences and the map on my own; campaign manager and metrics on a team.

- I built the front end of an audience builder in Vue 3: queries with AND, OR, XOR and NOT over age ranges, business categories and location.
- I developed the front end of a digital campaign manager and its metrics dashboard, working as part of a team.
- I built a geolocated POI map end to end with Mapbox, Next.js and Node.js.

## **Web Developer · Independent**

04/2020 — 06/2022 · 2 years 2 months · Oberá, Misiones

Landing pages, on a team. Vue, Quasar, Django, SCSS, Docker and WordPress.

- On a team, I built landing pages with Vue, Quasar, Django, SCSS, Docker and WordPress.
